FREE WI-FI ACCESS NOW AVAILABLE

SUPERIOR COURT OF CALIFORNIA, COUNTY OF CALAVERAS

The Superior Court of California, County of Calaveras now provides free Internet access via a Wi-Fi "hot spot" during normal business hours for the benefit of the public, attorneys, jurors, and justice partners who have portable computers or other devices capable of receiving wireless signals. The new Wi-Fi "hot spot" allows users to access the Internet from their laptop computers when sitting within range of the access point in the courthouse facility in San Andreas.

The project was funded by the Administrative Office of the Courts as a service to jurors serving on jury duty; however, the wireless internet access is not limited to jurors only.

The new "hot spot" will enable attorneys and other participants to access web-based information during court proceedings including the new child support calculator developed by the State of California, Department of Child Support Services.

Terms and conditions for use of the internet access point are posted in the court's lobby and on the court's website at www.calaveras.courts.ca.gov.
